

Interested in Off-Roading?

If you ride an off-road motor vehicle within Greater Manchester, the chances are that you are breaking the law.

There is currently no provision for the use of off-road vehicles on a controlled and legitimate site.

- You **must not** ride on public land, e.g. parks etc.
- You **must not** ride on pavements or highways.

If you have the express permission of the owner of private land to ride on that land you may still be committing offences relating to noise pollution and nuisance.

If you are thinking of riding an off-road motor vehicle in Greater Manchester ... think twice!

You can obtain more information on riding safely and legally from the organisations listed below:
